

# Simply more

## MPP – Mobility Power Pack

Simply light! Replaces battery and charger. With the latest lithium/ion technology. Full of energy. Sustainable. Reliable.

- > battery type: Lithium/ion (LiFePO<sub>4</sub>)
- > appr. 2,000 loading cycles
- > combination of power supply (8,8 Ah) + charger technology
- > 12 V nominal (14,6 max.), Long-term load: 80 A
- > integrated safety functions
- > clearly longer service life than conventional lead batteries
- > charging via power cable, alternator, solar panel or fuel cell
- > dimensions: 200 x 200 x 102 mm (L x W x H)
- > very low weight: appr. 2 kg

Even meets the stringent transport safety requirements of the UN standards.

Item number 526-2080

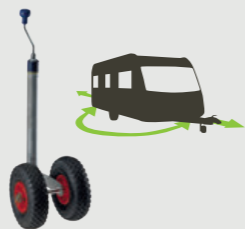

## Charger c-Go 10 A

- > fully automatic for AGM and GEL batteries – can also be used without a battery as a power supply
- > no fan, TÜV, GS accreditation
- > charging acc. to IUoU (max. charge current 10 A, max. charge voltage 14,4 V and 14,7 V, max. 14,8 V adjustable)
- > dimensions: 210 x 175 x 60 mm (L x W x H)
- > low weight: appr. 1,3 kg

Item number 526-2070

## „Easy Wheel“ double jockey-wheel

Item number 537-1000

- > double support wheel conversion set
- > easy and safe manoeuvring on all surfaces
- > gentle on the manoeuvring drive and the caravan chassis, to ensure that you can enjoy even more trips

## CWC – Caravan Weight Control

CWC 1,000 kg per wheel  
Item number 522-1500

CWC 1,500 kg per wheel  
Item number 522-1600

- Three measuring programs for:
- > caravans with single axle and jockey wheel
  - > caravans with tandem axle and jockey wheel
  - > motor homes

## TLC – Towbar Load Control

TLC for single axle caravan  
Item number 522-5000

TLC for twin axle caravan  
Item number 522-5200

- Reich TLC combines a nice and elegant design with the highest possible level of precision.
- > electronic nose weight gauge
  - > digital measuring
  - > accurate readout
  - > added safety
  - > compact design

# Simply making things happen.

MADE BY REICH . MADE IN GERMANY

# Simply holiday

The easydriver is **easy to manoeuvre** around tight bends to give you more freedom. Offers **powerful, safe handling** on steep slopes.

## Simply powerful: easydriver pro and basic

- > powerful drive for any application
- > new, intuitive easydriver operation (even under difficult conditions and on steep slopes)
- > simply light, smart and compact
- > low system weight with MPP (in combination with the Mobility Power Pack lithium/ion system – up to 27 kg less weight)
- > very small turning radius
- > engages electrically at the press of a button (with the easydriver pro)
- > a unique engaging mechanism for optimal power transfer
- > radio remote control for all functions, with status feedback
- > best traction for safety on slopes, wet grass, mud and rough terrain
- > gentle pulling away and stopping with Softstart and Softstop
- > minimal loss of ground clearance

## Simply unique: easydriver corrosion protection

The easydriver housing is made from specially developed, high-tech material. Simply making sure that rust will not become a problem. For lasting value.

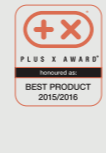

The idea is to provide **simplicity, care and quality** to those who are **passionate about caravanning** – innovatively developed, designed and manufactured by REICH.

# easydriver pro

Easy to engage/disengage electrically. At the press of a button.

State of the art, easy to use radio controlled handset with status feedback.

# easydriver basic

Easy to engage or disengage manually, using a wheel brace or a battery-driven screwdriver. Cross actuation fitted as standard.

State of the art, easy to use radio controlled handset with status feedback.
